## Rieju Radiator Guard Installation

### Mounting:

1. Remove radiator shrouds
2. Remove existing radiator shields
3. Remove the (2) radiator mounting screws
4. The two angled shield tabs will need to be bent parallel to rad guard (fig 1)
5. Slide guard in place and loosely install supplied M6x20mm for inside mounting. (fig 2)
6. Outside mounting holes should line up with tabs, use supplied M6-12 for these holes (fig 3)
7. Tighten all bolts
8. Re-install side panels and seat
